Problem Solving Workshop

For this session we will ask each member to bring 2 problems with them. These “problems” can be scheduling, clinical, or communication issues—really, anything that you struggle with at the office. All the members will be broken into small groups and you will be able to get advice, feedback and solutions that you can take back to the office and implement the next day.

Upon completion of this session, attendees should be able to:

- Create a plan of action to make decisions about dilemmas.
- Increase collaboration with colleagues.

Dr Edwin Leung

Kickoff Event

Lecture, up to 2.5 hours

Electives

AGD Subject Code 130

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Edwin Leung does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Oct

CBCT Evaluation for Implant Dentistry

With an in-depth review of imaging for implants—including image manipulation to produce clinically correct cross sections, radiographic anatomy of relevant parts of the head and neck, and a systematic review of a CBCT volume—Dr Tamimi will discuss key strategies for detecting and evaluating pathology that may be visualized on the scan and its relevance to implant treatment planning and insertion. Fine diagnostic details that enable participants to single out one diagnosis over another will be presented. This course is important to any dentist practicing implant dentistry, whether CBCT imaging is even used, because it reviews anatomy relevant to implant dentistry and the fine art of radiographic evaluation of pathology and formation of a differential diagnosis.

Upon completion of this session, attendees should be able to:

- Navigate and extract clinically correct images from a CBCT dataset.
- Understand radiographic anatomy as it relates to implant dentistry.

**Dania Tamimi,
BDS, DMSc**

Live Lecture

*Lecture, up to 8 hours
Multidisciplinary Topics
AGD Subject Code 149*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Dania Tamimi does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Nov/Dec

An Anterior Esthetic and Functional Dilemma in a Growing Young Patient

Trauma and fracture of a central incisor in a young patient can be a huge functional and esthetic dilemma considering they are still growing. There are many aspects to consider in determining how to best manage these patients as they grow. One such case will be discussed including the influence of continued growth, prosthetic options and considerations, and long-term stability and options.

Upon completion of this session, attendees should be able to:

- Identify options for management of fractured teeth in a teenager.
- Understand timing and prosthetic considerations in the young, growing patient.

Tal Morr, DMD, MSD

Part I: Tx Planning

Facilitated by Club Director

Part II: Q&A

Facilitated by Seattle Study Club

Lecture, up to 3 hours

Multidisciplinary Topics

AGD Subject Code 149

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Tal Morr does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Dec

An Evening Interview with Stock Analyst and Wall Street's Guru on Dentistry Jeff Johnson

Jeff Johnson understands the economy and can relate this to dentistry and the affects on your practice better than anyone! From teaching ophthalmology at Harvard Medical School, to an MBA at Kellogg, to R.W. Baird Wealth Management and Investment Banking, Jeff Johnson has forged a very unique path to become the most well recognized senior stock analyst in medicine and dentistry. He has offered to spend an evening with us, digging deep into the dental industry, to set the stage for decisions we will be making in our practices as a result of changes in the dental economic landscape.

Upon completion of this session, attendees should be able to:

- Have a better understanding of the economic landscape related to the dental industry.
- Have a better understanding of how changes in the overall dental industry affect dental practices.

Jeff Johnson, MBA

Evening Interview followed by Q&A

Lecture, up to 1 hour
Practice Management
and Human Relations
AGD Subject Code 550

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Jeff Johnson does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Jan

Digital Dentistry— From Concept to Reality

Digital technologies allow clinicians to create a virtual treatment plan, visualize the potential final outcomes, and share the plan in a format that is user-friendly and functional for all the specialists involved. This program will provide a step-by-step process to implement digital tools to create an easy, efficient and predictable workflow, with references to the literature and illustrative case presentations.

**Marcelo Calamita,
DDS, MS, PhD**

**Gustavo Giordani,
DDS**

**Adalberto Paula
Souza Jr., DDS**

*Livestream from
São Paulo, Brazil*

*Lecture, up to 1.5 hours
Multidisciplinary Topics
AGD Subject Code 149*

Upon completion of this session,
attendees should be able to:

- Demonstrate how to utilize digital tools in case planning and discussion.
- Identify basic components of an efficient digital workflow.

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Marcelo Calamita and Dr Adalberto Paula Souza, Jr. do not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc). Dr Gustavo Giordani is a key opinion leader and receives an honorarium from MIS Implants.

Feb

Esthetic Analysis and Digital Planning

This virtual workshop will allow practitioners to leverage their photography and intraoral scans by pairing them with software platforms to create efficient 2D smile simulations and learn the fundamentals of digital wax ups and model printing.

Upon completion of this session, attendees should be able to:

- Understand how to render a 2D smile with Photoshop.
- Understand how to render a 2D smile using SmileCloud and possibly 3Shape Smile Simulation.
- Convert a 2D smile design to wax up and print.

Material Requirement: Course participants will be asked to load software like Photoshop, SmileCloud, Meshmixer, Ray-Ware and possibly 3Shape Smile Simulation to their personal laptop computers via trial licenses. Participants will then be guided through the software while working through three different cases. For the best user experience, please bring your personal laptop to the session.

**Parag R. Kachalia,
DDS**

*Virtual Hands-On
Digital Diagnosis*

*Lecture, up to 2.5 hours
Operative (Restorative)
Dentistry
AGD Subject Code 250*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Parag Kachalia is director of educational development and industry relations for Seattle Study Club. Seattle Study Club is working with 3Shape to provide a custom portal for access to the simulation software.

Mar

Uncovering the Drivers to Increase the Value of Your Practice

There's quite a collection of myths and misconceptions many practitioners believe determines the value of their practice. Whatever your plans, whether expansion or retirement, an accurate assessment is essential to either of those next phases. It's time to bust those myths and determine a clear and accurate value for your practice. Join Ken for an in-depth discussion about key differentiators, how to avoid mistakes, and simple steps to maximize the value of your practice.

Upon completion of this session, attendees should be able to:

- Identify key factors in determining the value of a practice.
- Develop a plan to maximize practice value.

Ken Runkle

Bespoke Business Academy Module

Facilitated by Club Director

*Lecture, up to 2 hours
Practice Management
and Human Relations
AGD Subject Code 550*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Ken Runkle does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Apr

An Evening of Treatment Planning with Dr Sonia Leziy

This is a video-enhanced session with Dr Sonia Leziy from our World Treatment Planning Championship Symposium. Sonia has contributed a fascinating case, similar in complexity to the Stefano Gracis case planning session most of you participated in with Compleat Curriculum I. It is an anterior esthetic dilemma which challenges participants to make the choice to save or extract, and promises to provide an opportunity for spirited discussion. It received the highest ratings of all the cases presented at Symposium.

Upon completion of this session, attendees should be able to:

- Articulate arguments to defend the choice to extract and the choice to save a tooth.
- Understand resolution of an anterior esthetic problem.

**Sonia Leziy, DDS,
Dipl Perio, FCDS(BC),
FRCD(C)**

Tx Planning

Facilitated by Club Director

*Lecture, up to 2 hours
Multidisciplinary Topics
AGD Subject Code 149*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Sonia Leziy does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

May

Pursuit of Excellence: Optimizing Direct and Indirect Restorative Outcomes—Material Selection and Clinical Application

**Taiseer A. Sulaiman,
DDS, PhD**

Live Lecture

*Lecture, up to 6 hours
Esthetics
AGD Subject Code 780*

The wealth of materials currently available and required in restorative dentistry, combined with the rapid introduction of new materials, can be overwhelming. Understanding the basic properties and characteristics of each material, and their proper application, allows us to achieve the optimum potential of each material. Thus, providing the patient with exceptional care. This course will focus on clinical tips and criteria for material selection to complete the pursuit of excellence in mastering restorative dentistry.

Upon completion of this session, attendees should be able to:

- Understand the evolution of adhesive systems, tooth-colored direct restorative materials, and which adhesion strategy can optimize bonding to the tooth structure. Moreover, understand the importance of light-curing and the polymerization process and its role in prolonging restorative care.
- Establish criteria for modern-day ceramics selection and application with emphasis on monolithic zirconia, its different generations, and how the concepts of biomimetics can be applied to selecting the appropriate ceramic restorative material.

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Taiseer A. Sulaiman does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

June

Where Does the Rock Go When the Rock Needs Help?

Living and Leading Yourself and Others Through Tough Times

**Sree Koka, DDS,
MS, PhD, MBA**

Evening Livestream

*Lecture, up to 1 hour
Self-Improvement
AGD Subject Code 770*

Our dental degrees do not prepare us to tackle myriad challenges. In everyday dental practice and in our lives, we may be struggling to know what we should do and how we should behave with our patients, staff and loved ones. The shadow questions of what we should not do and how we should not behave add additional stress. To be successful, we need to be leaders, and as leaders, others look to us for the answers to walk them through tough times and challenges. So, during a time when we need a type of help we have never needed before, and acknowledging that leading through crisis requires a special set of skills, where do we go for this help? Join Dr Koka to learn about the tools that are available to take better care of ourselves.

Upon completion of this session, attendees should be able to:

- Describe the impact of stress on maintaining overall health.
- Demonstrate the importance of permission.
- Identify ways to build resilience that prevent or address overwhelming stress.

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Sree Koka does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

COMPLEAT CURRICULUM FINE PRINT

Registration

These are virtual and live lecture, demo, and peer discussion programs suitable for all dentists, dental students, and business professionals regardless of prior experience who are members of this study club.

Register by contacting

Name: Carolyn Logan

Email: carolyn@vancouverosg.com

Phone: 360.260.3290

Please call with any cancellations at least 72 hours before the meeting.

Disclaimer

Some information or presentations may include controversial materials or commercial references. Seattle Study Club cautions all course participants that there is potential risk to using limited knowledge when incorporating new techniques and procedures into their practices, especially when the continuing education program has not provided them with supervised clinical experience in the techniques or procedures to ensure that they have attained competence.

Substitutions

This brochure represents the speakers/programs established at the time of publication; however, speaker cancellations occasionally occur for reasons beyond our control. In the event of such an occurrence, speaker/program substitutions may be made without prior notice.

Electronic/Virtual Education

Participant feedback and interchange with instructors will be facilitated through e-mail and live Q&A for all sessions hosted by Seattle Study Club. For recorded sessions, directors will facilitate group discussion with club members.

Code of Conduct

We are committed to ensuring a safe and respectful meeting environment that is free of harassment, bullying, or offensive comments and/or behavior toward others. We expect all participants whether attending live or virtual sessions to abide by this Code of Conduct policy on all online platforms, or in venues at a meeting, including ancillary events and official and unofficial social gatherings.

- Exercise consideration and respect in your speech and actions.
- Refrain from demeaning, discriminatory, or harassing behavior and speech.

Up to 29.5 Credits Available

(Of which 7 will be submitted by Seattle Study Club and 22.5 will be submitted by St. Helen's Shadow Study Club.)

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (AGD PACE) through the joint program provider approval of Seattle Study Club Nationally Approved and St. Helen's Shadow Study Club Locally approved. Seattle Study Club and St. Helen's Shadow Study Club are approved for awarding FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority, or AGD endorsement.

The current term of Seattle Study Club approval extends from 10/1/2015 to 9/30/2021. Provider ID# 300136

The current term of St. Helen's Shadow Study Club extends from 9/1/2018 to 8/31/2022. Provider ID# 215131
